

Data Center Questions
Draft Questions for OEDA Conference Panel
09/19/2011

Questionnaire

- 1) Do you see an increase in data center construction? Why or why not?
- 2) What/who prompted you to call PGE? (inquiring about potential data center sites in Oregon?)
- 3) What are the top 5-10 requirements you/your clients look for when siting a data center? (rank criteria by importance)
- 4) Does Oregon meet those requirements?
- 5) Do other states meet those requirements?
- 6) On a scale of 1-10 (1= low; 10= high), rank the importance of power cost.
- 7) What utilities outside of Oregon have you done business with? Do they offer special services, efficiency programs, prices or conditions we should be aware of?
- 8) How important is power and reliability to your client? What voltage level is your preference for service?
- 9) How important is being a “green” utility to your client?
- 10) What could our region do to be more enticing to clients or “data center ready”?
- 11) How are your projects typically financed? Who owns them?
